A TRUSTED PARTNER SINCE 1992

Established in 1992

E.M.P.I. was founded as a Filipino company.

During its humble beginnings, E.M.P.I. started as a general trading company.

Grew to a Full-Service Provider

In 2006, driven by the leadership and foresight of Martin Gonzalez, the company transformed into a full-service provider of advanced acoustic and communication solutions.

We listen. We Understand. We Get Involved. We Deliver.

E.M.P.I.'s commitment to excellence and customer satisfaction has driven the company to continually improve and diversify its offerings.

TRANSFORMING SPACES WITH

SOUND MASKING AND ACOUSTIC EXPERTISE

SOUND MANAGEMENT

Primacoustic®

SOUND MASKING SYSTEMS

We design custom solutions using Biamp and Cambridge technologies to ensure privacy and comfort in work environments.

ACOUSTIC TREATMENT AND DESIGN

Our tailored Primacoustic panels enhance sound quality and effectively control noise, making any space more enjoyable.

COMPREHENSIVE SOLUTIONS

ADVANCED TELECONFERENCING SYSTEMS

Seamless teleconferencing systems that improve collaboration and communication in professional settings.

PUBLIC ADDRESS AND BACKGROUND MUSIC SYSTEMS

We specialize in delivering high-quality public address systems and integrated background music solutions for a wide range of applications.

SOUND SYSTEM DESIGN AND INTEGRATION

From corporate offices to public venues, our state-of-the-art sound systems meet diverse needs.

DURABLE WOODWORKS

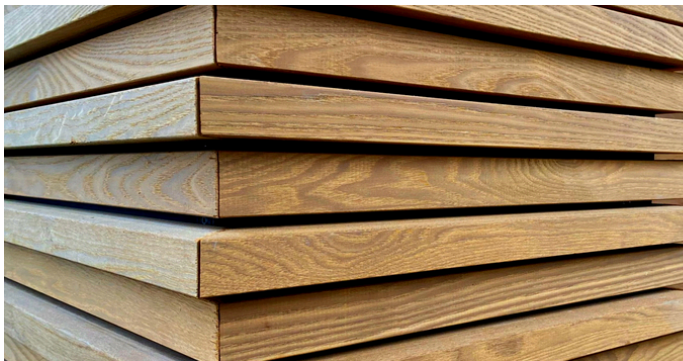

Woodworks

Our panel and flush doors are crafted using premium Douglas fir wood and high-quality sheet laminates, built for durability and noise management.

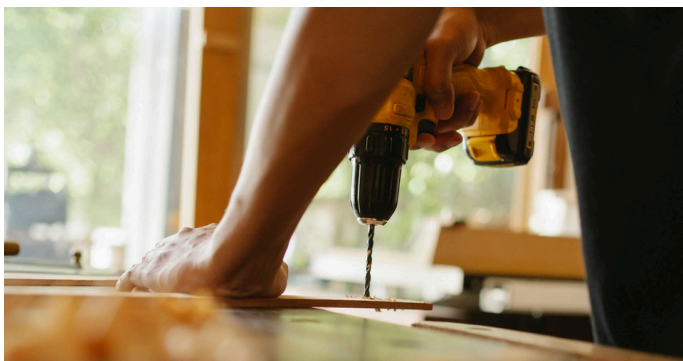

Premium Wood Materials

Our panel and flush doors are crafted using premium Douglas fir wood from the western US and Canada, and high-quality sheet laminates from Taiwan.

Durable Construction

These doors, kiln-dried to retain 12% moisture, are built for durability and noise management. They feature honeycomb cores and fiber insulation to minimize sound travel.

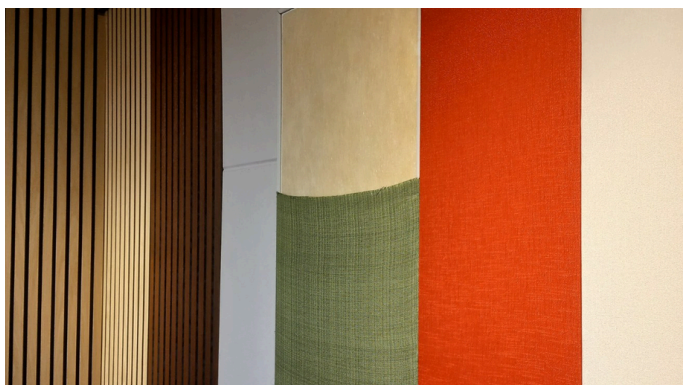

Efficient Installation

Our dry installation method ensures a clean and efficient process, with lock-holing and hinge cuts precisely done using computerized boring machines.

WE LISTEN. WE UNDERSTAND. WE GET INVOLVED. WE DELIVER

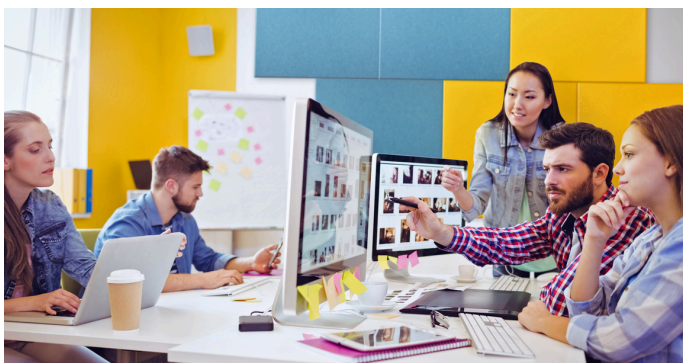

High-Quality Products

We provide high-quality products that offer the best performance at competitive prices.

Exceeding Expectations

We strive to exceed customer expectations in every aspect, from service to product selection.

Continuous Innovation

We constantly innovate based on customer needs and market demands.

DELIVERING QUIET, COMFORTABLE SPACES

Privacy

Our sound masking systems ensure privacy and comfort in work environments.

Sound Quality

Our acoustic treatments enhance sound quality and effectively control noise.

Collaboration

Our advanced teleconferencing systems improve collaboration and communication.
