Exclusive Distributor of  Primacoustic®

## WALL ACOUSTIC

### Broadway Wall Panels

Conversations in public spaces connect us, whether it's in a restaurant, house of worship, conference room, or any space where people come together.

Broadway panels from Primacoustic let your customers, congregants, patrons - anyone in your place of business — be heard.

))) NRC 1.00

### Ecoscapes

))) NRC 0.65

EcoScapes are eco-friendly sound absorption panels that address both sonic and aesthetic challenges.

EcoScapes panels are made from PET plastic (Polyethylene Terephthalate), which comes from recycled plastic water and soda.

### Telascapes

))) NRC 1.00

The versatile TelaScapes Fabric Track System allows you to acoustically treat any commercial or residential space without sacrificing aesthetics, while maintaining a high level of effective sound absorption within your space.

# CEILING ACOUSTICS

## Broadway Clouds

Broadway Clouds are ideally suited for controlling sound in restaurants, cafeterias, museums and retail spaces.

This is the perfect multi-shape panel solution for taming ceiling sound wave reflections.

))) NRC 1.00

))) NRC 1.00

## Baffles

Full-sized Broadway Baffles are designed to tame acoustic anomalies in large spaces that have low ceilings, such as community halls, conference rooms, meeting spaces and houses of worship.

Baffles reduce ambient noise and bothersome reverb and echoes in your room.

))) NRC 1.00

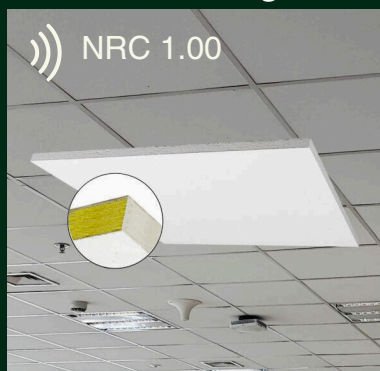

## Ceiling Tiles

**StratoTiles** are extra-absorbent acoustic ceiling tiles that reduce room echo and reverb. Perfect solution for call centers, boardrooms, offices, restaurants, classrooms or any room.

ThunderTiles combine a highly absorptive acoustic panel with sound blocking attributes of gypsum making them the perfect solution for rooms where sound bleed is concern.
